Tim: it turns out that there has been lost of activity on LEDlineDVTM and Mr. Hutchins over the last several weeks. I've included Jeff Lindley and others on this e-mail, so they can provide a paragraph per your request. FHWA is currently updating its R&T Roadmaps and I don't know if the proposal would be considered a priority for our research and evaluation, even if funding were available. Attached are some words that Carl Andersen on my staff developed, but I recommend that you wait until Jeff is able to weigh-in with his perspective.

Michael Trentacoste
